Maloney's 1938

MALONEY BROS. NURSERY CO., INC., Dansville, N. Y.

THOS. MALONEY
Founder 54 Years Ago

Our 54th Year

A. E. MALONEY
President

Let's Get Acquainted!

WE FEEL that we know you boys pretty well, having met most of you at our Nursery or at one of the fruit shows. We hope to see you all again this year at Kingston, Rochester, Worcester, Mass., or Lewiston, Maine. We will have our stock on display and one or more of us will be there personally to talk things over. Incidentally, one of our firm hopes to have the opportunity of going over a "deer hunting expedition of 1936" with a certain well-known fruit grower from Maine. "According to H. W., they sure enough tried to make deer run in his path."

Well, to get down to business—We have met some mighty fine men during our 54 years in the Nursery business, and the many, many pleasant hours spent with our friends will always remain with us. A saying going around at the present time is, "You've Got Something There." We think we have. Here are a few letters from customers:

Gentlemen:

This is written to show you our appreciation of your service and for the satisfactory and pleasant business relationship that has existed for many years in dealing with you on nursery stock.

As Manager of our Co-operative it has been my responsibility to purchase the nursery stock for more than 450 growers who grow little else than tree fruits. Therefore, they are critical about the stock they purchase.

The trees have been unusually good from your nursery and little trouble has resulted from trees handled from this source. As you know we have handled many carloads of your trees.

Thanking you for past service rendered, we beg to remain Yours very truly,

A. W. Lawrence, President FRUIT GROWERS CO-OPERATIVE

Gentlemen:

We are located in the heart of the Michigan Fruit Belt (Berrien County). For the last nine years we have distributed Maloney Bros. nursery stock in this section. We find that trees grown by Maloneys are well rooted, true to name, and adapted to our climate. We have some peach trees that bore at the age of two years.

We have many satisfied customers who insist on Maloney grown trees.

Robert Schoenfelder, Mgr., ST. JOSEPH MICHIGAN FRUIT ASSN.

Many of our customers we have never seen, and so for their benefit, we will attempt to state briefly what we have to offer—in other words, introduce ourselves.

Gentlemen, we grow the stock we sell right here in our 400 acre Nursery at Dansville, New York. Every operation from growing to shipping is handled by one of us personally. We must give tribute to such men as Nick, Hubbie, Joe and Billie who have been with us thirty years or more. Because of their cooperation and knowledge, and the cooperation and knowledge of others like them, we have been able to turn out the quality stock the name Maloney implies.

Dansville is in the heart of one of the few localities in the United States where both soil and climate are ideal for the propagation of nursery stock. Conditions such as these produce the most vigorous and abundant root systems, on which the development of stock vitally depends.

You benefit, Gentlemen, in that you receive lower prices and finer stock. This is easy for ANYONE to say, but it is just as easy for US to prove. A trial order will do it. The earlier, the better, while our supply is at its best.

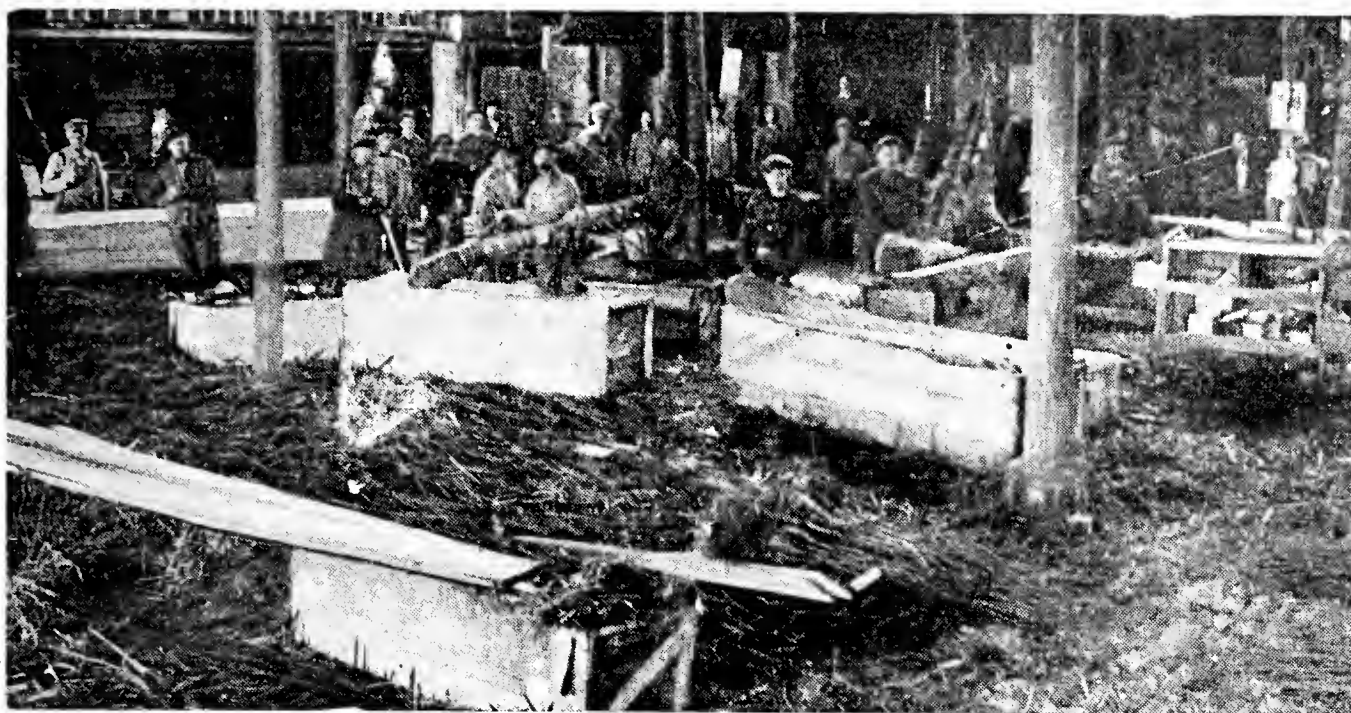

W. J. MALONEY
Secretary and Treasurer

We Grow The Trees We Sell

H. W. MALONEY
Vice-President

SAVE BY ORDERING EARLY FROM MALONEY'S

10%
of your
order
added free

Write your order. Then, if it totals \$2.50 or more, add additional stock to the value of 10% of your order. This will be included free, and applies only to cash orders, at catalog prices, mailed on or before March 28. OR, you may deduct cash discount of 5% on orders of \$2.50 or more mailed on or before March 28. **NO DISCOUNT AFTER THIS DATE.**

PLEASE READ CAREFULLY OUR TERMS AND GUARANTEE

TERMS: Cash with order is required or stock will be shipped C.O.D.

C.O.D.: Send 25% of total price with C.O.D. orders. Pay balance on arrival to your express agent or (if freight) to your banker who will have Bill of Lading. **NO DISCOUNT ON C.O.D. ORDERS.**

HOW TO REMIT: By personal check, express money order, post office money order, bank draft, or cash in a registered letter. **PLEASE DO NOT SEND STAMPS.**

SHIPPING SEASON: We ship at the time best suited to your locality. If you desire shipment to arrive at a special date, please so state on order blank.

ORDER EARLY: Ordering early enables us to assemble your order while supply is unbroken and set it aside for shipment at the proper time.

SIZE OF ORDERS: Send an additional 10c on all orders less than \$1.00 to cover packing.

WE GUARANTEE to deliver stock to destination in good condition, up to grade and specifications. If your order arrives in damaged condition, report immediately to carrier and to us. We will correct errors promptly or refund your money.

NON-WARRANTY: No human caution could be more exacting than ours. We will, on proper proof, replace free all trees, etc., that may prove untrue to label or refund price paid, but we can give no further warranty.

INSPECTION: Our nurseries are inspected yearly by an authorized state inspector and a copy of our certificate received from the Department of Agriculture and Markets, Albany, N.Y., accompanies each shipment.

INSPECTED APPLE TREES

Grown on the Upland Which Makes Them Hardy and Vigorous

Maloney Apples are all inspected for Trueness to Name by Dr. J. K. Shaw, Massachusetts Fruit Growers' Association, Amherst, Mass.

PRICES OF ALL VARIETIES OF STANDARD APPLE TREES

(Inspected)

			Each	10	100
Large	2 year	5-6 ft.	\$.95	\$8.50	\$62.00
Medium	2 year	4-5 ft.	.85	7.50	57.00
Small	2 year	3-4 ft.	.75	6.50	52.00
Large	1 year	3½-5 ft.	.90	8.00	59.00
Medium	1 year	3-3½ ft.	.80	7.00	54.00

RATES—Less than 10 at each rate. 10 to 50 at 10 rate. 50 or more at 100 rate.

SUMMER VARIETIES

Early Harvest—Pale yellow. Excellent flavor. Early July.

Early McIntosh—Same size, quality and flavor as McIntosh. Red. Trees vigorous, healthy. Annual bearer. August.

Melba (New)—Fruit bright crimson. Good size, mildly and pleasantly flavored. Season a little ahead of Early McIntosh and somewhat shorter.

Red Astrachan—Deep crimson covered with thick bloom. Juicy and tender; excellent for cooking. Tree hardy and vigorous and bears young. July-August.

Red Duchess (New)—Solid red with indistinct stripes. Very attractive. Reliable cropper. Flesh yellow and firm. Agreeably sub-acid. November to March.

Sweet Bough—Fine for baking or eating out of hand. Large, pale yellow. August.

Yellow Transparent—Skin pale yellow; flesh tender, juicy. August.

AUTUMN VARIETIES

Maiden's Blush—Large, flat; pale yellow, with red cheek. September.

Pound Sweet—Very large, round, yellowish russet; rich. October.

Red Gravenstein—Differs from the Old Gravenstein only in the solid, dark red colored fruits. September.

Digging by steam power preserves the fibrous roots.

ALL FRUIT TREES GROWN ON WHOLE BRANCHED ROOT STOCK

WINTER VARIETIES

Baldwin—The most popular winter apple for shipping, and the heaviest bearer. Tree grows rapidly and its fruit is large, round with red and yellow skin. Flesh yellowish, tart and very juicy. November to April.

Ben Davis—Fruit medium. Bright red. January to June.

Blaxtayan—Solid red without stripes. Does not crack at the stem; crisp and juicy. Will not scald in storage. Dec. to April.

Cortland—A beautiful red apple, larger than McIntosh. Matures a month later. Excellent quality, keeps late in winter and can be handled and shipped like the hardiest market varieties. November to April.

Delicious (red)—Large, almost covered with a beautiful, brilliant dark red. Quality unsurpassed and incomparable. Flesh juicy, melting, delicious. Splendid keeper and shipper. November to April.

Fameuse (Snow Apple)—Medium size, deep crimson, flesh white, delicious. October to December.

Gallia Beauty—Rapidly becoming a leading commercial variety. Red all over; having same shape and general texture with equal or better quality than Rome Beauty.

Gano—Fruit a deep, dark red. December to March.

Grimes Golden—Yellow. Flesh crisp, tender, juicy. Dec. to April.

Jonathan—Red, highly flavored. Early bearer. Nov. to January.

Kendall (New)—Dark red. Season about same as McIntosh, keeps a little longer. Fruit large and trim, with whitish fine-grained flesh. Flavor more sprightly than that of McIntosh.

King—Flesh yellow, crisp, tender, juicy, sub-acid. Skin yellow, mottled with orange red. October to January.

Macoun—A promising McIntosh Hybrid introduced by the New York State Experimental Station. Highly colored, white fleshed, richly flavored and aromatic. Almost solid red, with no stripes. Tree vigorous, heavy and regular bearer. Ripens three to four weeks after McIntosh. Hangs well. Large planting being made. October to April.

5-6 ft

4-5 ft.

3-4 ft.

2 Year Apple

McIntosh Red—An exceedingly valuable, hardy, attractive apple; good size; nearly covered with red. Flesh white, fine, very tender, juicy and refreshing. A good annual bearer. comes into fruiting early. Yields large crops. October to January.

Medina—Resembles Delicious, but larger and more attractive. November to April.

Milton—McIntosh-like apple ripens a month before McIntosh. Fruits pinkish red with heavy bloom. Flesh white, tender, crisp, juicy and of McIntosh flavor and aroma.

Northern Spy—A hardy, large, red apple. Flesh juicy, rich, crisp, tender. Tree healthy, strong grower, rugged. December to March.

APPLES—Continued

N. W. Greening—Greenish yellow, sometimes faintly blushed. Fruit large and of good flavor. Tree thrifty and hardy. October to April.

Opalescent—Fruit large; pale yellow, mildly sub-acid. November to February.

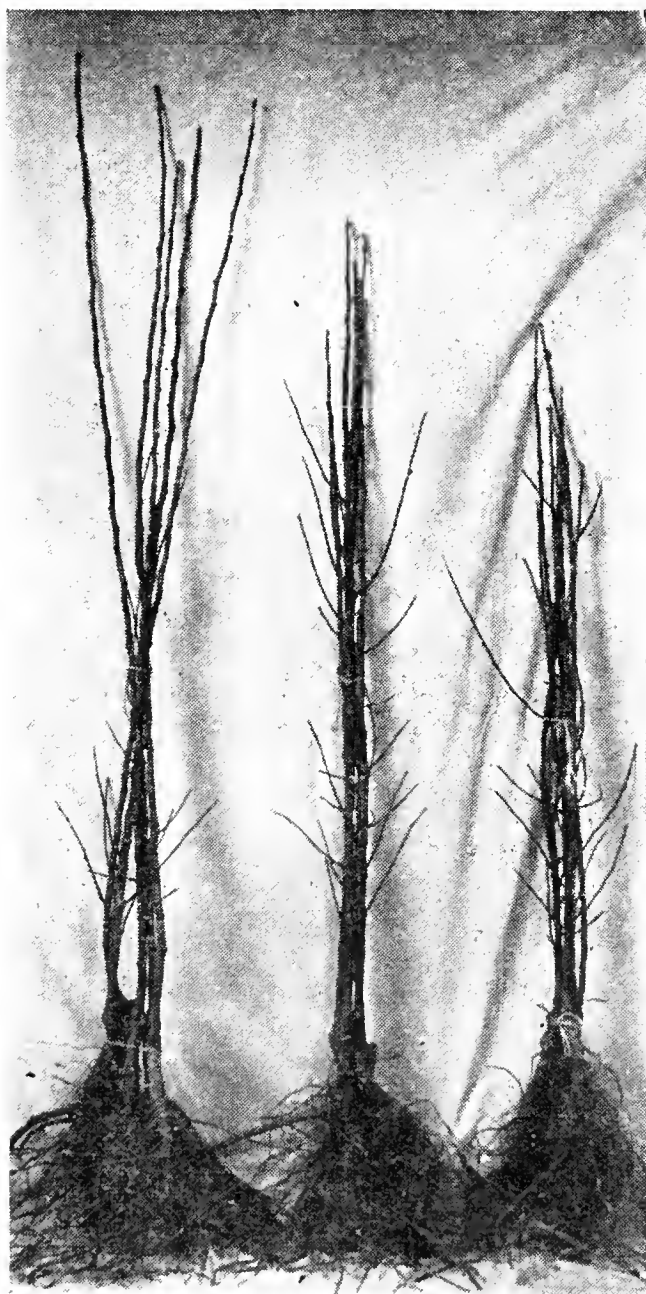

Red Rome—All of the qualities of Rome Beauty. Solid red, without stripes. December to March.

Red Spy—Solid bright red without stripes or splashes.

R. I. Greening—Large, flesh yellow, firm, crisp. Best cooking apple; ripens in December. Keeps until May.

Richared "Super Delicious"—This has all the splendid qualities of the common Delicious—the same distinctive shape and famous flavor. Solid, lustrous red without stripes. November to April.

Rome Beauty—Large, round. Red striped. December to March.

3½-5 ft.

3-3½ ft.
1 Year Apple

2½-3 ft.

Smokehouse—Color yellow or greenish, mottled with rather dark red. October to March.

Stayman's Winesap—Dark, rich, red. December to April.

Sweet Delicious—Deep yellow, lightly colored with a solid dark red. Flesh yellow. Nov. to Jan.

Tolman Sweet—Light yellow. November to April.

Twenty Ounce—Very large, yellow striped red, fine quality; good keeper. October to January.

Wagener—Of superior excellence; red, tender, juicy. Dec. to May.

Wealthy—Dark red, flesh white, juicy. October to January.

Winter Banana—Golden yellow; banana flavor. January.

Yellow Delicious—Fruit is golden color, delicious flavor and of very good quality. Ripens in October and keeps until Spring. 1 YEAR ONLY.

York Imperial—Blushed and striped with red. Flesh yellow, tender, and mildly acid. November to February.

Hyslop Crab—Fruit large, very brilliantly colored dark red, over-spread with thick blue bloom. October.

**Special Prices on
New Varieties Recommended
By New York State
Experimental Station**

Prices: Large, 2 year, 5-6 ft., \$1.25 each; 10 for \$11.50

Carlton—Dark red, flesh white, tender, juicy. September.

Dolgo (Crabapple)—Handsome red. Juicy and makes rich, ruby-red jelly of excellent flavor. Tree hardy, vigorous and productive. Also splendid for cider. September.

Lodi—Yellow fruit. Large vigorous. Late August-September.

Newfane—Fruit attractive red; a delicious dessert apple at Christmas time. November to April.

Orleans—Delicious type but larger, same rich delicious taste. November to May.

Red Sauce—Good cooking apple. Tender, crisp, juicy. October.

Enjoy highest price for your fruit by planting the newer varieties of fruit trees offered on this and other pages in this specially prepared catalog for the Orchard Planter.

WE INVITE YOU TO COME AND CHOOSE YOUR OWN TREES

NEW ROGERS McINTOSH APPLE

Here is a solid red McIntosh, classed as one of the most valuable new fruit introductions in years. The fruit is the same size as common McIntosh, but is not striped. Flesh white, fine grained, very tender, juicy and refreshing. Better quality than common McIntosh and hangs better on tree. October to February.

PRICES OF ROGERS McINTOSH APPLE TREES

			Each	10	100
Large	2 year	5-6 ft.	\$1.10	\$9.00	\$65.00
Medium	2 year	4-5 ft.	1.00	8.00	60.00
Small	2 year	3-4 ft.	.90	7.00	55.00
Large	1 year	3½-5 ft.	1.10	9.00	62.00
Medium	1 year	3-3½ ft.	1.00	8.00	57.00

Augusta, Maine
I recommend "Rogers McIntosh." I believe real advantage of planting this solid red strain rather than the regular strain is that it obtains a satisfactory color early and enables the grower to pick fruit at the proper time, rather than waiting, hoping for additional color later, and thereby having fruit too ripe for storage. I am planting "Rogers McIntosh" in my orchards. Stanley L. Painter
State Horticulturist, State of Maine

Here is a letter from the New York State Experimental Station:
Geneva, New York
The "Rogers McIntosh" was thoroughly tested here at the Station and does bear solid red apples. This has been proved by continued testing of this original strain.
C. H. Howe, Assistant in Research,
New York State Experimental Station

How to Plant

- 1—Set plants slightly deeper than in nursery.
- 2—Spread out roots naturally.
- 3—Shake good soil down among roots—work in with fingers.
- 4—Shake tree up and down to settle dirt.
- 5—Tread soil firmly when hole is half full.
- 6—Fill hole and tramp soil.
- 7—Leave loose soil on top or cover ground with mulch.
- 8—Pocket left to catch water.

NOTE: Always keep the roots covered. Dig hole large enough to receive plant without bending roots. Break up subsoil when it is very hard.

Bartlett—Unequalled flavor; brings top price. Large, yellow, juicy, bears young. September.

Beurre D'Anjou—Large, yellow, red and russet, good keeper. Oct.

Beurre Bosc—Large, russet, highly flavored; bears well. September to October. 1 YEAR ONLY.

Clapp's Favorite—Large, yellow, crimson and russet. Early Aug.

Douglas—Recent introduction of supreme value to fruit growers because it is blight proof and frost proof. Fruit roundish, large, smooth, attractive. Skin is yellow, thickly blushed scarlet on the sunny side. Autumn. PRICE 5c EACH HIGHER.

Duchess d'Angouleme—Fruit large, dull greenish yellow, spotted russet, flesh white, rich. October to November.

Flemish Beauty—Bears great crops of perfect russet fruit. September to October.

Garber—Tree upright, fruit large, yellow with crimson cheek. Oct.

Gorham (Late Bartlett)—Originated by New York State Experimental Station.

Kieffer—Large, golden yellow; excellent for canning. October to January.

Seckel—Small, yellow, red cheek, juicy, excellent for pickling. September-October.

Sheldon—Large, sweet, yellow and green. October.

Worden Seckel—Quality very high, size much larger than Seckel, shaped like Bartlett. October.

RATES—Less than 10 at each rate. 10 to 50 at 10 rate. 50 or more at 100 rate.

- Belle of Georgia**—Large, white with red cheek, excellent flavor. July. Free.

Carman—Medium size. Creamy-white with deep blush, skin very tough, flesh tender and juicy. Best white peach. August. Free.

Champion—White, red cheek, delicious flavor. August. Free.

Crawford, Early—Large, rich yellow with red cheek. Very productive. Early September. Free.

Crawford, Late—Yellow, large, late September. Free.

Elberta, Early—Ten days preceding Elberta; large, good quality. Early September. Free.

Elberta—Large, oval, yellow with red cheek; flesh yellow, firm, juicy, of high quality. Exceed-
- ingly prolific, sure bearer and hardy. Leading peach in all sections. Mid September. Free.

Eclipse—Dark red, yellow flesh, new and good. July. Free.

Golden Jubilee—New, large, early yellow peach of the Elberta type. Ripens three weeks earlier than Elberta. Skin is yellow blushed with red; flesh yellow, juicy, tender, sweet. One of the best. Free

Greensboro — White, shaded red, good. Late July. Free.

Hale, J. H.—Large, beautiful golden yellow, with deep carmine blush; practically free from fuzz. Good shipper and one of the most popular varieties. Heavy bearer when planting with it South Haven or Rochester for pollen. Late August. Free.

Portion of our block of 250,000 one year peach

Halehaven—Large new yellow free-stone; developed at Michigan Experiment Station by crossing the two popular varieties, J. H. Hale and South Haven. Its high color even before complete ripening gives it great market value because of the advantage of premature picking, packing, and shipping without loss. Hardy and productive. Ripens two weeks before Elberta. PRICE 5c EACH HIGHER.

Mikado—Large, skin and flesh yellow and red; semi-cling. Early August.

Mountain Rose—Large, red, white flesh. Mid-August. Free.

Oriole—Fruit medium to large, yellow; one week ahead of Rochester. Notable as an early peach of high quality. Free. PRICE 5c EACH HIGHER.

Rochester—Fruit large, yellow; an attractive red blush; juicy and delicious. Keeps well; an annual and prolific bearer. Mid-August. Free.

Salway—Yellow with crimson cheek. October. Free.

South Haven—Flesh yellow, juicy and deliciously sweet; exterior yellow with red cheek. Heavy bearer; good shipper; in fact, an excellent peach. September. Free.

Valiant—Seedling of Elberta; very promising. Fruit large, roundish, oblate, yellow blushed with red; firm, juicy, very good quality. Season about September 1st. Free. PRICE 5c EACH HIGHER.

Vedette—From Elberta seed; large, yellow-fleshed, free-stone. Superior to Elberta in quality and color. PRICE 5c EACH HIGHER.

Veteran—Cross between Vaughan and Early Elberta; large, yellow flesh, superior to Elberta in quality; ripens about September 1st. Free. PRICE 5c EACH HIGHER.

Yellow St. John—Medium size, orange yellow, with red blush. Middle of August. Free.

Montmorency Cherries

Early Richmond—This hardy cherry fruits soon after planting. Fruit is medium size, round and dark red. The flesh tender, juicy, and sub-acid. Ripens in June.

English Morello — Easily grown, generally producing a heavy crop. Fruit dark red, quality good, with a rich, acid flavor; late. Tree very hardy, for extremely cold latitudes. August.

Montmorency—This is the best of all the sour varieties of cherries. There is a greater demand on the market for this Cherry than for any other. The trees are the cleanest and best growers and are less subject to disease, less affected by wet weather, and are the best bearers of all sour varieties. The Montmorency is a good shipper, very attractive looking and always brings good prices. The canning factories are always wanting them by the tons. The fruit is good-sized, fine flavored and bright red. Flesh is of fine quality and sub-acid. Fruit ripens about 10 days after Early Richmond.

10% in Free Goods for Early Orders. See page 3.

PLUMS AND PRUNES
PRICES OF PLUM AND PRUNE TREES

			Each	10	100

RATES—Less than 10 at each rate. 10 to 50 at 10 rate. 50 or more at 100 rate.

Albion (New)—Grand Duke type but larger and better in quality. Tree productive, strong, vigorous. One of the most remarkable new plums. Late ripening. Price 5c each higher than other varieties.

Arch Duke—Large, black, prolific. Early October.

Bradshaw—A very large and fine early plum, dark violet red, juicy and good. Very productive; valuable for market. Middle of August.

Felleberg Plum—A fine plum, oval; purple; flesh juicy and delicious; parts from the stone; fine for drying; tree very productive. Early September.

German Plum—Medium dark blue; rich flavor. September.

Grand Duke—One of the best late plums; large as Bradshaw, of same color, entirely free from rot. Last of September.

Hall (New)—Cross between Golden Drop and Grand Duke but better in flesh and flavor. Tree nearly perfect. PRICE 5c EACH HIGHER.

Imperial Gage—Large, oval, greenish. Flesh juicy, rich, delicious. Parts from stone. August.

Lombard—It is a handsome reddish plum, the flesh yellow, juicy and pleasant. It is an excellent variety and can be relied upon for a crop when other varieties fail. August.

Monarch—Very large, roundish oval; dark purple. Freestone. Excellent, abundant bearer. October.

Reine Claude (Bavay's Green Gage)—Roundish, oval, greenish, marked red in the sun; great favorite. September.

Shipper's Pride—Large, dark purple; quite juicy, sweet; splendid shipper; moderate grower; productive. September.

Shropshire Damson—Fruit oval; medium size, dark purple. October.

Stanley (New)—Introduced by N. Y. State Experimental Station. Large, prune-shaped; dark blue becoming bluish-black. Flesh greenish yellow, juicy, fine grained, sweet. Mid-season. PRICE: 5c EACH HIGHER THAN OTHER VARIETIES.

Yellow Egg—Flesh golden yellow. Rather juicy. Tree large, very productive. September.

York State Plum—Large size, dark blue; delicious. One of the largest.

JAPANESE VARIETIES

(All bear young and heavily)

Abundance—One of the best Japan Plums. The tree grows rapidly, is healthy, comes into bearing remarkably young and yields abundantly. Fruit medium size, amber with markings of red; juicy, sweet. Aug.

Burbank—Is decidedly the best of Japan varieties unsurpassed for beauty and productiveness, and is a very hardy tree. Will stand the most severe winters. Fruit large, oval, with reddish purple skin; flesh yellow, juicy and good. August.

Red June—The great early market plum. Medium to large; deep vermillion red, free from rot. Ripens in early August.

Block of our 2 year old Plums

MALONEYS GUARANTEE SAFE DELIVERY OF ALL SHIPMENTS

DWARF FRUIT TREES

The dwarf fruit tree is dwarf in tree size only, with fruit that is always as large and usually larger than the fruit grown on standard size trees. It has the added advantage of being readily picked without the use of high ladders.

The dwarf fruit tree is especially adapted to the city or suburban home where large spreading standard size fruit trees are not adapted. Not only can these trees serve as useful trees, but are extremely decorative as well during the spring blossoming period. They can be planted 15 feet apart, having a spread of 12 feet and every home has room for a group of these attractive fruit trees. Dwarf trees come into bearing early, in fact, many of these trees have borne fruit in our nursery.

		Each	5	10	50
Large	3-4 ft.	\$.95	\$4.50	\$ 8.50	\$37.50
Varieties: Bartlett, Clapp's Favorite, Duchess, Kieffer, Seckel.					

IMPROVED DWARFING STOCKS

So far as we know, Maloney Brothers are the first in this country to offer fruit trees on the improved dwarfing root stock selected by the East Mallina Research Station in England, and propagated and introduced by the New York State Experiment Station at Geneva, N. Y.

These rootstocks are superior to the dwarf stocks used in the past because they are pure strains. The performance of varieties on these stocks can, therefore, be accurately forecast.

The most dwarfing stock in the group of Malling types is Malling IX, also known as Jaunne de Metz. A semi-dwarfing stock of good character is Malling I, also known as broad-leaved English Paradise

Sincerely yours,
H. B. TUKEY, Chief in Research New York State Agricultural Experiment Station

QUINCE AND APRICOT TREES

PRICES OF QUINCE AND APRICOT TREES

			Each	10	100
Large	2 year	4-5 ft.	\$1.00	\$9.00	\$69.00
Medium	2 year	3-4 ft.	.90	8.00	63.00

QUINCE

Orange—Originated in Wayne County; the best Orange Quince on the market.

Large, yellow, fine quality; tree rarely fails to produce a crop. October.

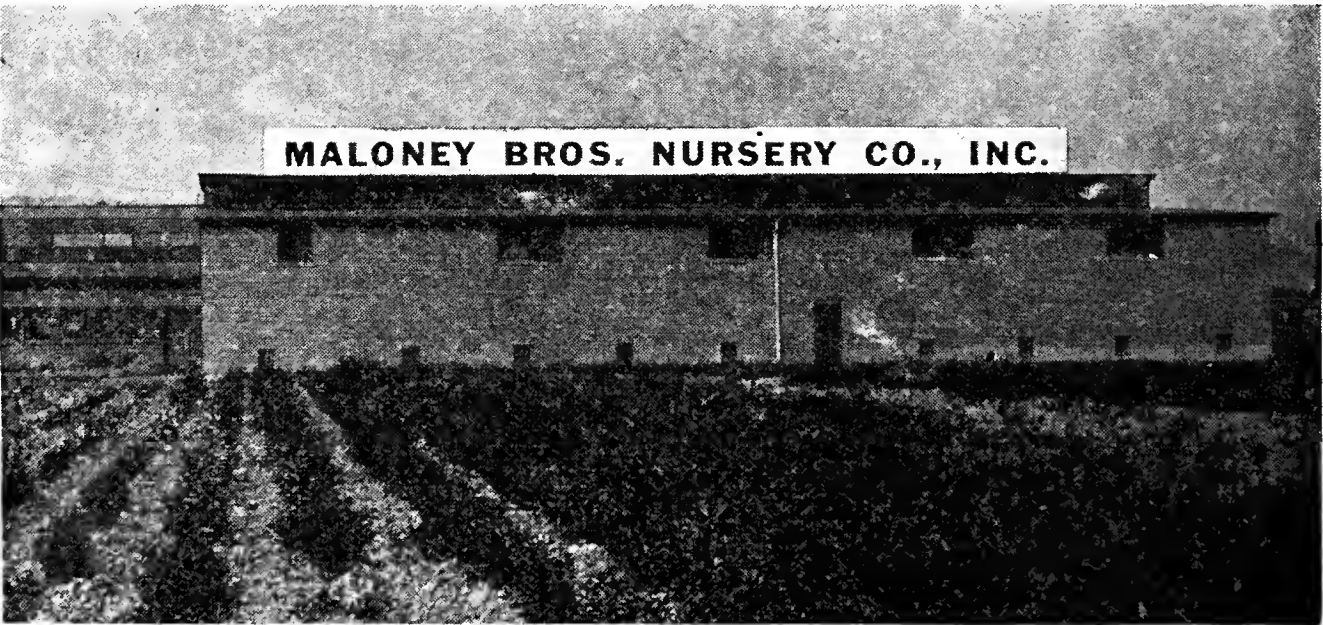

Rea's Mammoth—Fruit very large; ripens a little later than Orange.

APRICOT

Early Golden—Small, pale orange, juicy and sweet.

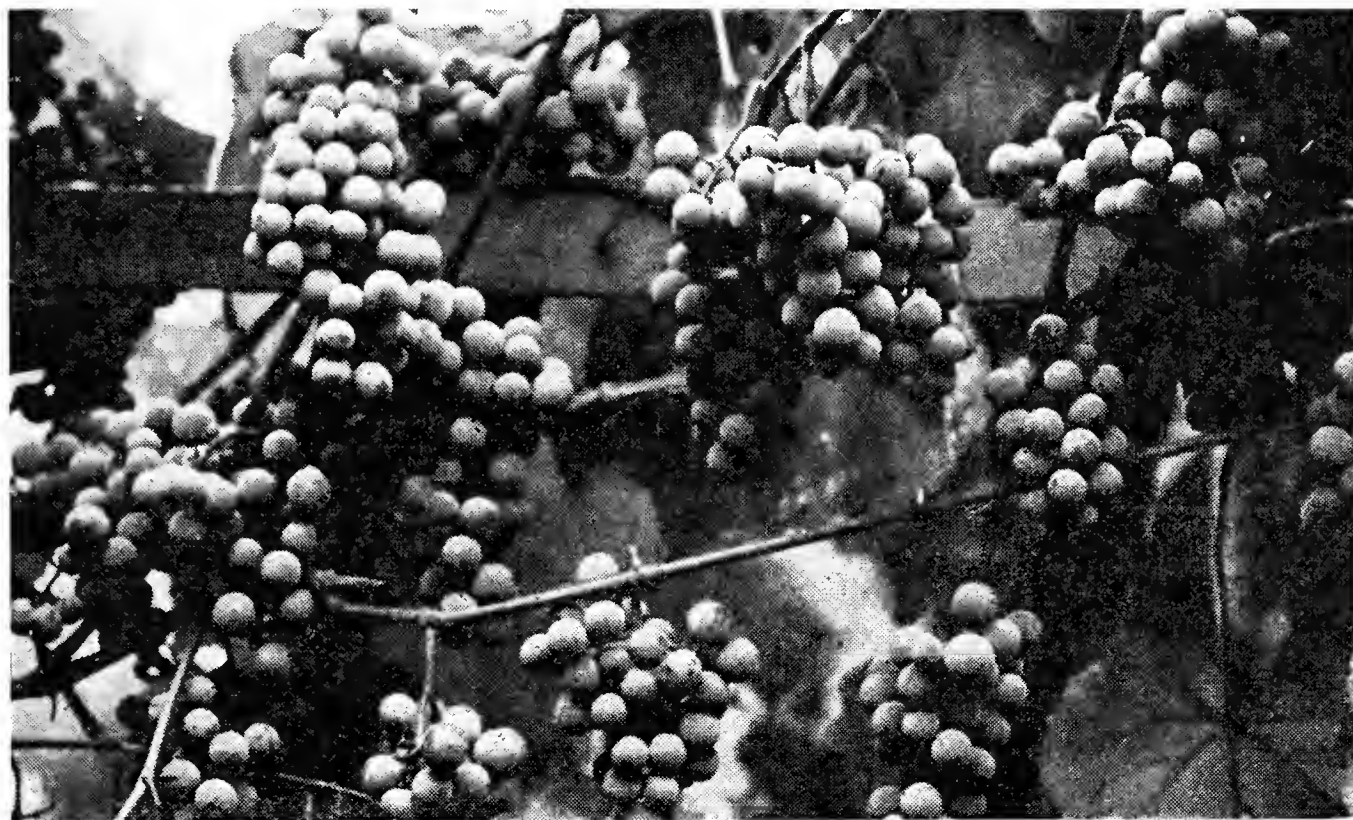

Moorpark—Large, orange-red cheek, firm, juicy. August.

Superb—Good flavor, medium size, light salmon color.

Our modern frost-proof storage keeps stock safe from winter injury

We Treat Every Customer As We Would Want To Be Treated

Fredonia

GRAPES

2 Year, No. 1 Strong Vines

Parcel Post—Grapes sent by Parcel Post, postage prepaid, 3c per vine extra.

Agawam, Red—Bunch large; berry large, reddish brown, tender, excellent flavor. 29c each, \$2.25 per 10, \$15.00 per 100.

Caco, Red—Of the highest quality. Flavor is sweet and delightful. Vine vigorous and bears early. 40c each, \$3.00 per 10, \$25.00 per 100.

Campbell, Black (New)—Sweet and juicy. Seeds few and small. Very early. 29c each, \$2.25 per 10, \$20.00 per 100.

Catawba, Red—Berries large, of coppery red color. An excellent table and wine grape. 29c each, \$2.00 per 10, \$14.00 per 100.

Concord, Black—Best general grape. Bunches large and compact; berries large, round, almost black, covered with bloom; pulp juicy and sweet. Vine hardy and productive. Should be in every garden. 2 year No. 1: 25c each, \$1.50 per 10, \$9.00 per 100, \$85.00 per 1000. 1 year No. 1: 20c each, \$1.25 per 10, \$7.00 per 100, \$60.00 per 1000.

Delaware, Red—Bunches small, compact, berries small, with thin but firm skin; flesh juicy, very sweet and refreshing, of the best quality for table use and for wine. Price: 30c each, \$2.25 per 10, \$18.00 per 100.

Dutchess, White—Bunches large and compact. Berries medium size. Fruit ripens in mid-season, keeps and ships well. 29c each, \$2.25 per 10, \$14.00 per 100.

Dunkirk, Red (New)—Originated by Geneva Experimental Station. Berries similar to Delaware but larger; ripens later. Vine vigorous and

productive. 40c each, \$3.50 per 10, \$27.50 per 100.

Elvira, White—Ripens same time as Concord. Vigorous, hardy and healthy, producing heavy crops. Berries medium size; very valuable for wine. 29c each; \$2.00 per 10, \$13.00 per 100.

Fredonia, Black (New)—Early, black grape, vigorous and productive; ripens 2 weeks earlier than Worden. Medium cluster. Berries large, flesh juicy. Originated by Geneva Experimental Station. 40c each, \$3.50 per 10.

Moore's Early Black—Large, black, sweet and of good quality, ripening about ten days earlier than Concord. 29c each; \$2.25 per 10, \$15.00 per 100.

Niagara, White—King of white grapes. Bunch and berries large, greenish white, changing to pale yellow when fully ripe. 29c each; \$2.25 per 10, \$14.00 per 100.

Ontario, White—Originated by Geneva Experimental Station. Single shouldered, vigorous and productive. Grapes hang on vine long after ripening. Early. 40c each, \$3.50 per 10.

Salem—Large, sweet, thin skin; ripens first of September. Red. 30c each, \$2.25 per 10, \$15.00 per 100.

Worden, Black—Seedling of the Concord, resembles it in appearance and flavor, but the berries are larger, ripening several days earlier. 25c each, \$1.75 per 10, \$13.00 per 100.

COME TO DANSVILLE—LOOK OVER OUR STOCK—OUR 54th YEAR

RASPBERRIES

Raspberries are profitable, and it is nice to be able to go out and pick a few as you want them. You can plant an acre of them, 2,400 plants, 3 feet apart and get big returns the second year, and from \$600.00 to \$1000.00 per acre thereafter. Berries require little care, and only reasonably good soil.

Chief (New)—Berries are dark red, good size, extra firm and hold up a long time after picking. Yields 15 to 30 per cent more than other Raspberries. Withstands dry, hot weather. Ten to twelve days earlier than Latham. Price: \$1.35 per 25, \$3.50 per 100, \$13.00 per 500, \$24.00 per 1000.

Columbian, Purple—Very large, somewhat conical, rich, juicy; seed small, bears large crops. Valuable for table and canning; fruits from middle of July to August. Price: \$1.35 per 25, \$3.50 per 100, \$15.00 per 500, \$27.50 per 1000.

Cumberland—Berries large and black; firm, glossy and unsurpassed in quality; perfectly hardy and very productive. Splendid shipper. Price: \$1.25 per 25, \$3.50 per 100, \$12.50 per 500, \$22.50 per 1000.

Cuthbert, Red—Large, conical; deep rich crimson, firm and of excellent quality; vigorous and produces fine crops. Price: \$1.35 per 25, \$3.50 per 100, \$13.50 per 500, \$25.00 per 1000.

Latham—A superb success in quality, production and profits. It has been truthfully said that Latham leaves nothing to be desired in a Red Raspberry. Berries are mammoth, dark red, of uniform size, and present a beautiful sight on the bushes and in boxes. Fruit clings to stems several days after fully ripe. Extremely hardy and Mosaic free. Price: \$1.00 per 25, \$2.50 per 100, \$11.00 per 500, \$20.00 per 1000.

Logan (New)—Very popular new sort. Berries glossy black and of fine quality ripening nearly a week earlier than Cumberland. Heavy cropper and holds up well through season. Especially valued for resistance to diseases. Price: \$1.25 per 25, \$3.50 per 100, \$12.50 per 500, \$22.50 per 1000.

Naples—New variety. New York State Experimental Station considers it most promising black Raspberry that has ever

fruited on their grounds. Plants vigorous and productive; fruit is large, glossy, attractive, firm and good quality. Price: \$1.35 per 25, \$3.50 per 100, \$15.00 per 500, \$27.50 per 1000.

Newburgh—New variety from New York Experimental Station. Claimed to be most promising. Fruit very large, firm, and does not crumble. Color is attractive bright red. Plants are vigorous and hardy. Mosaic free. Price: \$1.75 per 25, \$4.00 per 100, \$18.00 for 500, \$34.00 per 1000.

Plum Farmer, Black—The most profitable early market variety; maturing the entire crop in a very short period. Berries are very large, thick meated; firm and attractive. Price: \$1.25 per 25, \$3.50 per 100, \$12.50 per 500, \$22.50 per 1000.

St. Regis, Red Everbearing—One of the best; will produce berries the first year in the fall, a full crop the following spring and again in the fall. The berries are bright crimson, very large. Every garden should have at least a few bushes for you can supply the table with delicious fruit summer and fall. Price: \$1.35 per 25, \$3.50 per 100, \$13.50 per 500, \$25.00 per 1000.

Sodus, Purple—Originated at New York State Experimental Station. Berries very large, firm, medium purple in color, sprightly and good in quality. Plants are very vigorous, very productive, and hardy. Sodus is much more resistant to drought than Columbian. Ripens shortly after Latham. Price: \$2.00 per 25, \$6.50 per 100, \$27.50 per 500, \$50.00 per 1000.

BLACKBERRIES

Blowers—Very large, finest flavor, jet black. Canes grow upright; perfectly hardy. One of the most productive, starting to ripen in July and continues late. Brings the highest market price. Price: \$1.75 per 25, \$4.50 per 100, \$17.50 per 500, \$30.00 per 1000.

Eldorado—Largest hardy Blackberry; free from rust. Berries large, jet black, borne in large clusters and ripen well together; very sweet, melting, no hard core and keeps for eight to ten days after picking with quality unimpaired. Rooted cuttings. Price: \$1.75 per 25, \$4.50 per 100, \$17.50 per 500, \$30.00 per 1000.

DEWBERRIES

Lucretia—It equals any of the tall growing sorts. Perfectly hardy and remarkably productive, with large, showy flowers. The fruit, which ripens early, is often 1½ inches long by 1 inch in diameter; soft, sweet and luscious. Price: 60c per 10, \$3.50 per 100.

Latham

PLANT BERRIES FOR QUICK PROFITS

CURRENTS

We have selected the finest currants on the market for your jams and jellies.

Price of All Varieties, 2 Year No. 1 Strong Bushes

3 for 85c; 10 for \$2.50; 100 for \$18.00

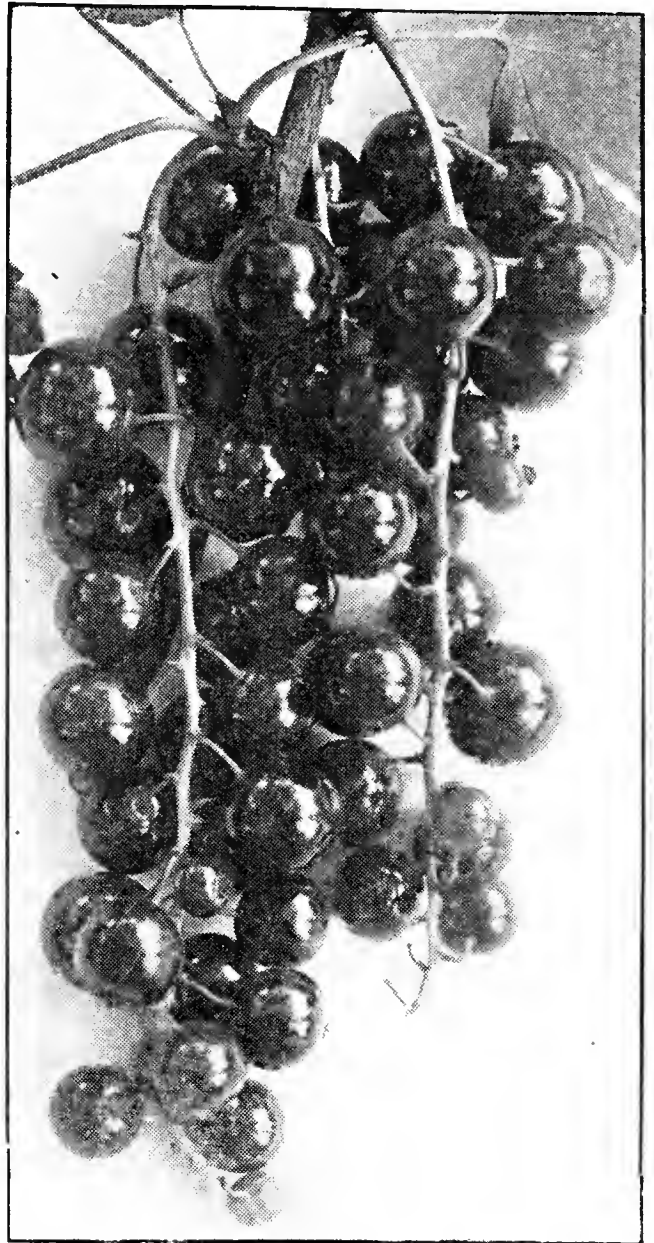

Parcel Post—Currants can be sent by Parcel Post, postpaid for 5c per bush extra.

Fay's Prolific—Uniform. Easily picked. Exceedingly productive.

London Market—Bush vigorous, upright, fruit medium to large, color dark red, with sprightly acid flavor, very productive.

White Grape—Berries averaging large; of very attractive color, mild flavor and good quality.

Wilder—Bush upright, vigorous; clusters above medium length; berries large to very large; bright red with a mild sub-acid flavor. Ripens early and remains bright and firm until very late.

Wilder

RHUBARB

Makes excellent pies, fresh sauce and cordial. No garden is complete without this plant.

Champagne—Excels all in size flavor and delicate tenderness. Price: 2 year strong roots: 3 for 50c; 10 for \$1.25; 50 for \$4.00.

GOOSEBERRIES

Price: Two Year Bushes—3 for \$1.00; 10 for \$2.75

Downing—Fine quality, vigorous growth and free from mildew. Large green.

Josselyn—Marvelously productive. Large size, dark red.

Poorman—Originated by New York State Experimental Station. Large, healthy, vigorous. Fruit red and very attractive. Excellent for heavy soils.

ASPARAGUS

100 roots will provide a 6 weeks' supply for an average family

Strong 2 Year Plants: 25 for 60c; 50 for \$1.00; 100 for \$1.75; 1000 for \$10.00.

By Parcel Post ½c each extra.

Washington, Pedigreed—An excellent rust resistant variety. Stalks are large, dark green with a heavy purple overtone. Every garden should have an asparagus bed for it is the first vegetable in the spring.

Plant

Price Postpaid: 25 for 65c; 50 for \$1.00; 100 for \$1.50.

Price by Express (not prepaid): 25 for 50c; 50 for 70c; 100 for \$1.10; 500 for \$3.75; 1000 for \$6.50.

Dorsett—Released for introduction by the U. S. Department of Agriculture Spring 1933. Color is bright red. Berries very large; flavor superior to other early berries. Can be classed among the best.

Fairfax—Released for introduction by the U. S. Department of Agriculture Spring 1933. Fruit ripens uniformly along with Premier; long fruiting season. Quality is unexcelled. Berries are very large, bright red color at picking time, turning dark red. Fairfax should be planted for both home and commercial use.

Premier—Perfect flavored. It is smooth and large; its color the commanding glossy red which sells on sight. Early.

FALL OR EVERBEARING

Price Postaid: 25 for 85c; 50 for \$1.30; 100 for \$2.00.

Price by Express (not prepaid): 25 for 70c; 50 for \$1.00; 100 for \$1.65; 500 for \$7.00; 1000 for \$12.50.

Gem—A sweet, deep red, glossy appearing berry of excellent marketing quality. Berries are above average in size, outstanding in firmness—vigorous plants, with heavy root system, hardy and blight resistant. (The sensational, new, everbearing variety).

Mastodon—The fruit is of very large size and has a good waxy appearance. Produces an abundance of fruit continuing throughout the summer and fall.

Fuerbrand (New)—Brilliant orange-scarlet. Flowers freely; blooms produced in quantity.

Miss Lingard—Pearly white flowers with pink eye, two or three crops a season. Best early white.

Mrs. Scholten—Dark salmon-pink in enormous pyramidal spikes.

Von Hockburg—Brilliant red. Vigorous grower. 3 ft.

Write For Large Catalog For More Complete Information On Varieties.

EVERGREENS

At least a few should be mixed in with every planting because during the winter when everything else is colorless, the Evergreen stands out in its beautiful coat of green.

ALL EVERGREENS MOSS BALLED—The new nursery way. Instead of shipping with ball of earth, we simply remove the soil carefully when digging, replacing it with wet moss and enclosing in a burlap container, thus reducing the weight 30 to 50 lbs. This makes it possible to ship Evergreens by Express instead of Freight, making them much cheaper to ship so that everyone can now afford Maloney's Evergreens. We will Earth Ball, and Burlap Evergreens at customer's request.

Arbor Vitae, American—Used for hedge, foundation planting or singly on lawn. Can be trimmed or allowed to grow high. 2-2½ ft., 98c each; 2½-3 ft., \$1.28 each; 3-4 ft., \$1.78 each. (Write for special prices for larger sizes).

Arbor Vitae, Berckman's Golden (Biota Aurea Nana)—Columnar variety, golden diffusion. 15-18 in., \$1.48 each; 1½-2 ft., \$1.78 each.

Arbor Vitae, Globosa—Low growing, compact, round; for foundation planting. 15-18 in., 88c each; 1½-2 ft., \$1.28 each.

Arbor Vitae, Golden (Geo. Peabody)—A beautiful columnar variety less bulky than American, with strong golden diffusion. 1½-2 ft., \$1.38 each; 2-2½ ft., \$1.78 each; 2½-3 ft., \$1.98 each.

Arbor Vitae, Golden Tipped—A broad pyramidal golden tree, formal in shape, reaching a height of eight to ten feet; hardy. 2-2½ ft., \$1.68 each; 2½-3 ft., \$1.98 each.

Arbor Vitae, Oriental—Columnar habit, bright green foliage. Bronze in winter. 2-2½ ft., \$1.28 each; 2½-3 ft., \$1.68 each.

Arbor Vitae, Pyramidal—Densely columnar type, compact, erect, deep green. 2-2½ ft., \$1.38 each; 2½-3 ft., \$1.68 each; 3-4 ft., \$2.18 each.

Arbor Vitae, Siberian—A hardy variety used for a background in foundation planting. 1½-2 ft., 98c each; 2-2½ ft., \$1.38 each.

Arbor Vitae, Tom Thumb—Small, compact, fine feathery foliage for foundation planting. 1½-2 ft., \$1.18 each; 2-2½ ft., \$1.48 each.

Fir, Douglas—Popular for its hardiness and great beauty; dark green. 2½-3 ft., \$2.18 each.

Hemlock, Canadian—Its refined foliage is lacy, close set and darkly lustrous. 2-2½ ft., \$1.88 each.

Juniper, Irish—Formal habit; compact, columnar, used in cemeteries and on either side of entrances. 2-2½ ft., \$1.48 each; 2½-3 ft., \$1.78 each; 3-4 ft., \$2.18 each.

Juniper, Pfitzers—Branches densely furnished with grayish-green foliage. Very picturesque; excellent for foundation plantings.

SPREADING TYPE: 15-18 in., \$1.68 each; 1½-2 ft., \$1.88 each.

UPRIGHT GROWING: 1½-2 ft., \$2.48 each; 2-2½ ft., \$2.75 each.

Juniper Prostrate—A handsome ground covering type. Color, fresh gray-green. 1½-2 ft., \$1.58 each; 2-2½ ft., \$1.98 each.

Juniper Savins—Excellent dwarf evergreen; fan-like in habit; foliage dark green. 15-18 in., \$1.38 each; 1½-2 ft., \$1.68 each.

Colorado Green Spruce

Juniper, Squamata Meyeri—Steel blue color, upright growing. 15-18 in., \$1.78 each.

Pine, Austrian—Broadbased, heavily needled, massive, darkest and richest green of the Pines. 2½-3 ft., \$1.98 each; 3-4 ft., \$2.68 each.

Pine, Mugho—Only genuine dwarf Pine. Slow growing, hardy, compact, excellent for rock gardens and foundations. 15-18 in., \$1.68 each; 1½-2 ft., \$1.98 each.

Pine, Scotch—Rapid grower; silvery foliage. 2½-3 ft., \$1.98 each; 3-4 ft., \$2.68 each; (Write for special prices for larger sizes)

Retinospora Plumosa (Plumed Cypress)—One of the best pyramidal varieties. Foliage a grayish green. 2-2½ ft., \$1.78 each; 2½-3 ft., \$2.28 each.

Retinospora Plumosa Aurea (Golden Plumed Cypress)—Rich coloring. 2-2½ ft., \$1.78 each; 2½-3 ft., \$2.28 each.

Spruce, Colorado Blue—The cream of the Evergreens; beautiful blue foliage. 2-2½ ft., \$2.98 each; 2½-3 ft., \$3.78 each.

Spruce, Colorado Green—Origin of the famous Blue Spruce. Vigorous grower, hardy, making fine specimens. Sharp needles densely set. Light green color. 2-2½ ft., \$1.78 each; 2½-3 ft., \$1.98 each; 3-4 ft., \$2.48 each.

Spruce, Norway—Popular Christmas tree variety, used also as windbreak or on lawn. 1½-2 ft., 78c each; 10 for \$7.00. 2-2½ ft., \$1.18 each; 10 for \$9.00. 2½-3 ft., \$1.28 each; 10 for \$10.00. 3-4 ft., \$1.48 each; 10 for \$12.00. (See Hedges).

Taxus Cuspidata (Japanese Yew)—Compact, upright spreading variety, dark green foliage; scarlet berries in autumn. 1½-2 ft., \$2.48 each; 2-2½ ft., \$3.18 each.

Taxus Cuspidata Nana (Dwarf Japanese Yew)—Dense bushy habit; very hardy. Close-set, dark green foliage, short and rich. Slow growing. One of the best of the dwarf evergreens. 15-18 in., \$2.78 each; 1½-2 ft., \$3.48 each.

Taxus Media Hicksi—Beautiful, dense, columnar form; heavily sheared for specimens. 1½-2 ft., \$2.88 each; 2-2½ ft., \$3.88 each.

Virginiana Cannarti—New type of Red Cedar. Columnar variety with bronzy-green foliage. 3-4 ft., \$2.78 each; 4-5 ft., \$3.78 each.

Virginiana Glauca (Blue Cedar)—Upright grower, its regularity of spread is uniquely attractive; the broadly conical form and beautiful glaucous blue foliage making it one of the choicest of all Junipers. 3-3½ ft., \$3.28 each; 3½-4 ft., \$3.68 each.

SHADE and ORNAMENTAL TREES

Birch, Cut-Leaved Weeping—Graceful drooping habit, silvery white bark. 5-6 ft., \$2.48 each.
